8/125/2018-3/8/18

It has come to my notice that some Contractors of the Public Works (B&R) Department are not using the Steel manufactured by the primary producers having integrated Steel Plants, such as TATA, SAIL, RINL, JSPCL.

Please issue instructions to all the concerned Officers of the department to use Steel manufactured by primary producers having integrated steel plants and this requirement should be clearly mentioned in the tender documents.
